## Request to remove two-factor authentication

Select the methods you want to remove:

- Security key
- One-time password (OTP)
- MojeID Klíč (mobile app)
- MojeID Autentikátor

If you remove two-factor authentication, you will lose access to public administration services. In case you want to regain access to public administration services, you will have to go through the whole process again (including the identity verification at the Czech POINT office, if you cannot use another authentication method).
